WPC Fence

As one of the most popular fence models, WPC fencing has become a preferred choice in the market. Compared to traditional wire mesh and iron fences, MecoFence meets the growing demand for healthier, more natural solutions while offering easy DIY installation. The natural appearance of WPC fences enhances any outdoor space, while their versatility makes them perfect for domestic fencing, decorative partitions, and household decoration. Designed to make wood smart, WPC fencing combines style, sustainability, and functionality, offering a smarter, eco-friendly choice for modern living.

The slatted design offers a modern, versatile style that can be installed both horizontally or vertically to suit any space. Made from co-extrusion WPC material with a 3D slat shape, it stands out in the flat market, providing a sleek, scratch-resistant surface that is also easy to clean. The aluminum fence post ensures a smart, hassle-free installation, making the process easier and more convenient. Designed to make wood smart, this innovative fencing solution combines style, durability, and functionality, perfect for today's eco-conscious and design-driven homeowners.

Bicolor Style

Pure Style

Super Kit Fence

Unlike other MecoFence series, this model uses advanced co-extrusion technology for both boards and posts, offering superior performance with waterproof, mildew-proof, and UV-proof properties. The uniform color of the boards and posts ensures a harmonious, seamless look. With a variety of colors and designs to choose from, it's a smart choice for creating a stylish and functional garden space that combines durability and modern design for homeowners who value both aesthetics and practicality.

ASA Fence

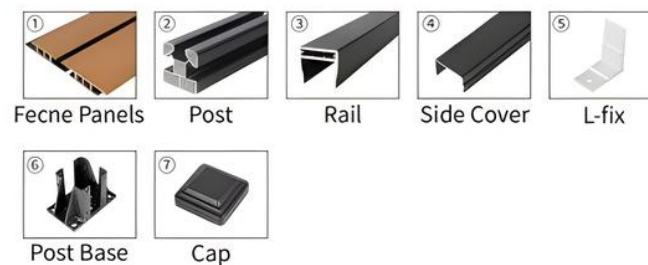

The ASA fence panel offers superior durability with its advanced ASA material, known for exceptional UV resistance and weatherproof performance. Designed with an innovative interlocking installation method, it ensures a quick, secure setup with no screws or nails required, making the process hassle-free and efficient. This sleek, modern fence solution provides long-lasting beauty without fading, cracking, or peeling. Available in a variety of colors, the ASA fence panel combines smart design, low maintenance, and enhanced functionality, making it the perfect choice for homeowners seeking a smart, sustainable, and attractive fence solution.

Carving Fence

This fence is a good combination of traditional iron fence and WPC fence. The carved part can be WPC boards or metal. The different patterns can provide more options to clients and give better visual effect to our fence products. Due to the half privacy design, this fence is mostly applied as decorative boundary fence, coffee shop partitions or leisure areas.
